

Buying Empty Barrels

Requirements:

- Equipment Type
 - Is Barrel = True
 - Is Portable = True
 - Product = set as non-inventory barrel Product

How to Use:

1. Navigate to **'Barrel Management Console (BMC)'** from the universal search bar.
2. Navigate to the **'Barrel Management'** tab and click **'Buy Empty Barrel'**

3. Build your barrel Purchase
 1. Select the Vendor & Purchase Date
 - i. Selecting a date in the past will result in the Purchase being created in 'Received' status. Selecting a date in the future will result in the Purchase being created in 'Ordered' status.
 2. Select the barrel Equipment Type(s) and quantity. You can build a purchase for multiple barrel types.
 3. Enter the details of each barrel type being purchased.
 - a. Barrel Name is system generated using the Equipment Type Name and assigning a unique barrel number; however, the barrel name can be manually overridden if needed.

- b. Enter Barrel Cost. This is the cost of the empty barrel that will be dispersed to the liquid during Barrel Fill.

60G Japanese Mizunara Barrel	60G Japanese Mizunara	New	Two(30s)	LT	\$350.00	\$350.00

Barrel Type: 60G Japanese Mizunara | Barrel Qty: 3 Add Barrel

Total Barrels: 6 Total Price: \$1,550.00

Cancel Receive

4. Click **'Receive'**

4. If the barrel Purchase date is less-than or equal to today, then the Purchase will be created in 'Received' status. Navigate to the Purchase to mark as 'Confirmed'. This is required before barrel filling can occur because the barrel cost must be defined and passed to the liquid at the time of the fill.

Receive Barrel

Barrel(s) have been received successfully. Purchase 2156 has been created.
This purchase must be confirmed before there barrels can be used.
